## The Golden Rule of Safe Driving

## "Set a good driving example even if others don't."

## Putting it into practice...

- Be considerate when making lane changes and passing people.
- Cooperate when someone wants to pass you.

Addination the speed limit. If others cut in

front of you, drop back to maintain a proper following distance.

Don't fight tailgaters. Just get out of their way.

Respect the elderly driver or those who may drive slowly because of a disability.

Don't use a cell phone while driving. It is illegal in some states.

## When you use the golden rule, you make the road safer for everyone. And you feel good, knowing you've done the right thing.
